About Romex International School

"The School and its Students Pride themselves in the all round Education Provided at Romex International School"

Romex International School, one of the finest in the vicinity, has etched a name for itself, not only as an abode of learning, but as a center for acquiring wisdom. We believe that education lies beyond the boundaries of textbooks, that learning comes from personal enquiry & research and we encourage the natural curiosity of young minds. The School, in keeping with its motto will impart complete all round education. It will provide the learning environment that will enhance Emotional, Cultural & Intellectual awareness and development of its students. It will be our endeavor to create future generation who are truly world class citizens, socially responsible, independent thinking & committed citizens who shall make the world a better, safer and happier place. This co-educational English Medium School, from Playgroup to Class X, affiliated by the Central Board of Secondary Education (CBSE) is located in a picturesque, pollution-free environment, near Radha Valley, NH-2, Mathura

School Building (The Infrastructure)

School is the second home to a child. Romex has been thoughtfully planned across 2 acres of sprawling green campus, with state –of-the-art infrastructure and modern teaching tools, amenities and facilities. The infrastructure is child centered, providing space that makes schooling inspiring and motivating

Words of Wisdom

"The task of the modern educator is not to cut down jungles, but to irrigate deserts....."

The new millennium has brought in its wake an array of global changes which were unheard of before. Life today, is on the fast track with gigantic changes in the field of science, technology, management, information and communication. This situation demands readiness to face the changes. The concept of 'Emotional Intelligence' has gained considerable importance 'Humanism', the over-arching philosophy of our time, translates into the 'child-centred approach' in education. In this the child's needs, interests, play activities and self-confidence assumes tremendous Importance. The child's education, in terms of pedagogical strategies used, evaluation techniques, curriculum plans, teaching content etc is greatly influenced by the philosophy of significant educational thinkers and innovators.

Over just academic excellence and hence there is more focus on the ability The child of yesteryear was categorised as either male or female, which represented a definite set of qualities. This compartmentalization no longer remains valid as boys and girls are by and large seen as a generic category and are evaluated in terms of common traits and qualities. Today's child no longer realizes only on being told about various phenomena. He is a child with a multi- faceted persona, a child of the technological age. He has his own perspectives, ideas and understanding and often argues before he is convinced. Exposure to the world- wide web and the hard realities of today's world have made him more mature and mentally agile. The teacher has to relate each child's psyche and there is greater emphasis on the equation between the teacher and the student. This foundation is essential for facing the seemingly new problems that confront an individual in today's troubled times. Based on all the tenets, the maxim of the school is that the learning activities are all child- centric. The school therefore provides ample opportunities in all spheres of learning, helping the child to emerge as a wholesome personality, ready to face the challenges of life

SP SINGH
Chairman

Board of Director

"Education is the Basis of all progress. Over the centuries experience has taught us that progress is possible only if Men and Women are equally well- Educated. The Entire purpose of Education is not to restrict itself to imparting bookish knowledge to inculcate humanitarian values like Wisdom, Equality, Compassion, Courage, Integrity and Reliability in an Individual. We at Romex, just like you, believe in holistic Education for your child, encompassing-academic, co-curricular activity, Sports and life skill learning is our endeavor to strike a balance between state –of- the art infrastructure and an internationally acceptable holistic education. At Romex International School we impart Education that is Based on Conscience and we rear a breed of young minds that are bustling with self confidence, motivation and even ready to take up any challenge. The Campus, Sports and academic Facilities all bear testimony to this effort, in order to promote an internationally acceptable education, our key focus has been on faculty development, providing continuous teacher training in order to deliver real value education and excellence in academics. Teachers are trained not only to teach well but are also expected to inspire confidence and trust in our Students and become role models. Further, The School inculcates in the Students a respect for national tradition that ensures discipline and good mannerism. We, encourage future Romanians to learn about themselves and their constantly changing environment, while at the same time offering support and guidance as they practice decision-making and social skills. We are confident that Romex International School is the best place for your child. We welcome your active interest and involvement in the progress and activities of your child. We look forward to your continuous support and interest in our dream project.

KRISHNA SINGH
Director

Principal Message

Dear Parents / Guardian,

Our school has come to symbolize the truest spirit of dedication to the task of maintaining an excellent standard of education. I have received unstinted Co –operation of the staff in this arduous task, and the outcome has been consistent excellence shown by the students, not only in the academic results, but also in various fields of extra curricular activities. Any new technology likely proves to be of help to the students, is made available by the school, and students are given an opportunity to learn, in accordance with their individual capability, for education, to be meaningful and rewarding, it is essential that the students, the staff and the parents work in unison. God bless all.

Thanks & Regards

PRIYA CHAUDHRY
Principal
